Press Note.

The attention of owners of motor vehicles is drawn to the fact that Registration Certificates sent to the Inspector-General of Police in Mysore, Bangalore, by owners of motor vehicles who do not reside in Bangalore, will be sent to them by post; but residents of Bangalore will have

to make their own arrangements to collect their Registration Certificates from the office of the Inspector-General of Police.

(P.N. No. 133—28-10-1952).

Press Note.

HEALTH OF LIVESTOCK IN MYSORE STATE DURING SEPTEMBER 1952.

In their order of severity, outbreaks of Rinderpest Hæmorrahagic-septicæmgia, Blackquarter, Anthrax, Gastro-entritis, Sheep-pox, Foot and Mouth, Ranikhet Rabies and Contagious-goat pleuro-pneumonia were encountered in the State during September 1952. Altogether 167 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 146 villages during the previous month. The number of outbreaks was highest in Shimoga, Hassan and Bangalore districts, while Mandya, Chikmagalur and Tumkur districts were least affected. These diseases accounted for 679 attacks, of which 572 succumbed. The departmental staff conducted 26,827 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Three outbreaks of Rinderpest were registered in Bagepalli taluk accounting for 19 attacks among cattle, of which 6 succumbed. Prompt measures of control were undertaken by the department to check its spread and 341 cattle in the infected villages and 495 cattle in four neighbouring villages were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 118 villages, accounting for 41 deaths as against 123 villages accounting for 34 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 7,487 animals as against 9,008 animals during the previous month.

Due to failure of rains, scarcity of drinking water and fodder was continued to be felt in Kolar, Tumkur Chitaldrug and parts of Hassan, Chikmagalur, Shimoga and Bangalore districts, as a result of which 2,443 cattle are reported to have died from starvation. Fodder continued to be supplied to all the depots opened in the affected areas from Mandya district. The villagers in the distress areas have moved their non-essential cattle into the jungle areas and Amrith Mahal Kavals that are thrown open for free grazing and the staff of the department is keeping necessary vigilance on the large gatherings of cattle for controlling any outbreaks that may be evidenced among them with a view to preventing serious losses to livestock therefrom.

(P.N. No. 134—3-11-1952).

Press Note.

Seasonal remission amounting to Rs. 420-2-3 has been sanctioned for the year 1950-51 as a measure of relief to the atchakatdars whose wet lands under Ravandur Tank in Periapatna Taluk, suffered on account of scarcity of rainfall during the year 1950-51.

(P. N. No. 135—3-11-1952).

Press Note.

Progress Report of the Department of Archæology, Mysore, for the year 1951-52.

Inspection of Monuments and Study of Architecture and Sculpture and Ancient Sites.

The activities of the Department were mainly concentrated, as in the previous year, on the study of the conservation needs of the large number of protected ancient monuments of the State. As many as forty monuments were examined by the Director and the conservation staff of the Department during the year under report. In most cases, estimates of cost for urgent repairs or renovation forwarded by the Officers of the Public Works Department and the Muzrai authorities had to be scrutinised keeping in view the actual needs of the monuments from the point of view of archæological conservation. As far as possible, suggestions have been made for effecting repairs to the monuments in the order of urgency, the main consideration being the safety of the structure as well as the availability of funds. Among the monuments thus inspected, mention may be made of the Jyotirmahesvaraswami temple at Saligrama, Divyalingeswaraswami temple at Haradanahalli, Isvara temple at Arsikere and Mallikarjuna temple at Basral. A special estimate for urgent ropairs to the Vidyasankara temple at Sringeri for Rs. 10,000 was also scrutinised.

Other monuments of great archæological importance and architectural beauty inspected during the year that deserve to be noticed are the Arkesvara temple at Hale Alur, Ramesvara temple at Narasamangala, Amaranarayana and Bhimesvara temples at Kaivara, Hariharesvaraswami temple at Harihar, Isvara temple at Anekonda, Lakshminarayana temple at Hosaholalu, Madhavarayaswami temple at Bellur and the Nageswara and Channakesava temples at Mosale. The Arkesvara temple at Hale Alur and Ramesvara temple at Narasamangala both of which are situated in the Chamarajanagar Taluk happen to be architecturally unique and hence attract special attention. But since the monuments have been neglected from a long time, it is necessary to attend to their repairs immediately. An exhaustive note has been prepared on the conservation needs of these works of art and forwarded to the Deputy Commissioner, Mysore District, for taking needful action.

The Kyathedevaru temple at Kyathedevarugudi, Chamarajanagar Taluk, Sri Sangamesvara temple at Sindaghatti and Madhava and other temples at Tirthahalli are some of the monuments studied during the year. The temples at Tirthahalli are all small structures built of granite and probably belong to the days of the Ikkeri chiefs. The Kalleswara temple at Aralaguppe is one of the early monuments of the State dating back to Circa 10th century A.D. The carved ceiling panels of this temple are of rare sculptural beauty. Close up views of the Nataraja panel in the middle of the ceiling of this temple were obtained. The peculiar pose and the disposal of the limbs of Nataraj have been clearly brought out in this photograph and this bas-relief happens to be one of the finest among the figure sculptures in the State. At Nekkundipet near Chintamani is an ancient site which goes back to the days of the Bana and the Nolamba Pallava period. A number of 'Viragals' or memorial stones to heroes and ancient inscriptions are lying there exposed to sun and rain in a neglected condition. The antiquities found on this ancient site are important in so far as they are among the few extent original evidence about the Bana dynasty which flourished in that part of the Kannada country. Again, near Anekal is another site belonging to about the 7th and 8th centuries A.D. Even on the surface of this site, red and black were potsherds and pieces of iron slag could be easily picked up in large numbers. A megalithic site was also noticed at Kongandhalli in the Chintamani Taluk.

Future control of Protected Monuments.

An important measure concerning the future control the protected monuments of the State was the enactment by the Union Parliament of the Ancient and Historic Monuments and Archæological Sites and Remains Act 195 There are at present over 250 protected ancient monumen and sites in the Mysore State. Of these, 108 importa monuments and eight archæological sites have been declar by the Union Parliament to be of national importance a included in the Union List of Protected monuments, wh the rest come under the State List. The expenditu required for the maintenance and arrangements for wat and ward of the monuments and archæological sites national importance will be borne by the Central Gover ment as from 1st April 1950 The Director visited Karki and Venur in the South Kanara District along with t Chairman and other members of the Gomatesvara Resear Committee in connection with the study of the State weathering of the statues of Gomatesvara at those places

Epigraphy.

Four sets of copper plate records were received by Department for decipherment and study. One of th belongs to the Vijayanagar Rulers; two to the Keladi chi while the other record is a grant made by the Mysore Ru

Krishnaraja Wadiyar II to one Singyapperumal. New lithic records were also discovered during the year under review at Hale Alur, Horakeredevarapura, Hosaholalu, Tavarekere, Kikkiri and other places.

Exhibition and Museum.

An exhibition of the antiquities pertaining to the Chitaldrug District was organised at Rangayyana Bagilu, Chitaldrug, during the visit of His Highness the Maharaja of Mysore, to that place. His Highness who paid a gracious visit to the Exhibition evinced keen interest in the antiquities and other exhibits displayed. Orders have been placed with the Government Industrial School, Chitaldrug, for the preparation of show cases and frames required for the purpose of opening a museum of antiquities in Rangayyanabagilu at Chitaldrug.

Visitors.

During July 1951, the Director accompanied the Hon'ble Prime Minister of India and the Deputy Minister for Foreign Affairs to Belur, Halebid and Sravanabelagola and explained the archæological and artistic importance of the masterpieces of ancient art in those places. Sri H. L. Srivastava, Joint Director-General of Archæology in India, New Delhi, paid a visit to the State in December 1951. He was shown round the monuments at Srirangapatna, Sravanabelagola, Belur, Halebid and on the Chamundi Hills by the Director. Dr. B. Ch. Chhabra, Government Epigraphist for India, Ootacamund, visited the Department along with the Joint Director-General of Archæology. Early in the month of Januray 1952, Sri R. S. Panchamukhi, Director of Kannada Research, Dharwar, visited the Department and the Archæological Museum at Mysore and acquainted himself with the recent activities of the Department.

A select collection of photographs taken by the Department during the year was circulated among the different Departments of Archæology situated all over India and received appreciation.

Publications.

The Guide Books to the monuments, etc., at Belur, Halebid and Talkad which were got re-printed recently were made available for sale to the public. The Annual Report of the Department of Archæology, Mysore, for the year 1946 was also got printed at the Government Branch Press, and is now ready for distribution amongst scholars and research institutions. The printing of the Tamil texts of the Supplementary volumes to the Epigraphia Carnatica (Bangalore and Kolar Districts) made good progress. It is also proposed to publish the other volumes of the supplement to the Epigraphia Carnatica shortly.

Library.

About 50 new books and periodicals were acquired by epartment for purposes of reference and study.

Finance.

receipts and expenditure of the Department amount- Rs. 27,304-3-0 and Rs. 27,204-3-0 respectively during ar. A sum of Rs. 302-3-0 was realise l by the sale Departmental publications and photographs.

Mysore in Relation to the All-India Five-Year Plan.

The Chief Minister had specially convened a meeting today at 3 P.M. in his Chambers at the Public Offices, to gather suggestions in regard to Mysore's part in the All-India Five-Year Plan. He had invited all the Ministers of the previous Cabinet, the Leader and Deputy Leader of the Opposition, and the Communist Member of the Legislature, the Secretaries to Government and the Heads of Development Departments. All the Ministers of Government, Sriyuts H. C. Dasappa, H. Siddiah, K. T. Bhashyam, T. Mariappa, R. Chennigaramiah, J. M. Imam, the Secretaries to Government and the concerned Department Heads were present.

There was a general consensus of opinion in regard to pressing on the Government of India the need to give an increased measure of assistance to Mysore State under the Five-Year Plan. Valuable suggestions were also offered in regard to the stress to be laid on the inclusion of more irrigation projects in the Five-Year Plan and the need for the Government of India to enhance their grants to Mysore in this direction, especially in view of the fact that, under the circumstances, it may not be possible for the State to bear the whole share allocated to it under the draft plan. The meeting also decided to put before the National Development Council the urgent necessity of giving priority to the Bhadra Reservoir Project and the Honnemaradu Power Supply Scheme and for the Government of India to finance these two schemes.

There was unanimous endorsement of the Chief Minister's emphasis on the need for impressing on the Government of India to give a larger share of assistance by way of grant or loan to Mysore, in view of the special conditions prevailing in the State. Suggestions were also given in regard to the need to take into account the urgent necessity of improvement of conditions in the malnad, the extension of the railway system through Mysore to the West Coast, and the amelioration of the conditions of the Depressed Classes in the State.

The Chief Minister assured all those present that he would carry all the suggestions in mind and place them before the meeting of the National Development Council to be held on the 8th and 9th of November in Delhi, for their urgent consideration.
